

## ONE Number from a \$47 Million California SuperLOTTO Plus Jackpot

There are two good reasons for pooling with [The Lottery Alliance](#). First, we all increase our chances to win a jackpot without increasing our out-of-pocket expense to play the lottery. Secondly, our pooling gives us a simple and effective way to introduce other people to the dynamic business opportunity of the XzottoLotto Alliance. Plan to Win!

Pooling is definitely the SMART Way to Play and for those of us in Pool # 0107-011709 January 14th, 2009 will be a good pay day, but it was ALMOST a Very Good Pay Day!

One of our first tickets for the pool, bought a week before this particular drawing, held a number combination on Row "C" that matched four (4) main balls and the Mega Ball. Matching five (5) main balls without hitting the Mega Ball pays players much better because the odds are about eight (8) times harder than matching 4 balls and the Mega.

So, instead of each of us getting a million dollars or more, we have to decide whether to cash in, or roll the dice into a new Play Period with numbers in which ONLY this pool will share. On the next page I will give you some options and then we can vote as to what the **majority** of us want to do. Unfortunately, we have this decision instead of sharing the jackpot. That's OK, though; we are warming up for the BIG WIN.

SuperLOTTO Plus Winning Numbers for Draw # 2273 on 01-14-2009 were:

**Primary Balls: 1 19 39 44 45 Mega Ball: 8**

Matching Numbers	Winning Tickets	Ticket Value
5 + Mega	0	\$ 47,000,000
5	4	\$ 22,475
<b>4 + Mega</b>	<b>17</b>	<b>\$ 2,644</b>
4	652	\$ 114
3 + Mega	1,134	\$ 59
3	28,518	\$ 11

**There was no SuperLOTTO Plus jackpot winner for draw #2273 on 01-14-2009**

After taxes are taken out, there will probably be about \$1,800 left over that would give us each under \$100 in winnings...

Other Possible Options for the Winnings Are:

1. Play ALL the winnings over 5 draws in the SLP, which is up to \$50 Million.
2. Play ALL the winnings over 5 draws in the PB, which is up to \$165 Million.
3. Over 5 draws, play half the winnings in the \$50 Million SLP drawing and the remainder in the Powerball game, which is \$165 Million for Saturday.
4. Over 3 draws, play half the winnings in the \$50 Million SLP drawing and the remainder in the Powerball game, which is \$165 Million for Saturday.
5. Divide the money and give each pool member their pro rata share.

I will email a survey that we can discuss. Let's decide by Saturday at 11 a.m. CST.

And, of course, let's Plan to Win!

Kevin
